The book is intended as an introduction resource that will help beginners in understanding pressure points and the best way to use pressure points in self-defense situations. You will be taught the definition of pressure points and how to use to protect yourself. In addition, you will learn to effectively attack these points even with limited training. Besides, you'll learn how to help a partner if you get him out of training. Be aware that this is not an exhaustive job, and do not expect to know how to master pressure points in this article without real practice and supervision by an instructor or mentor. Thank you, and I hope you enjoy it! Chapter 1: The Constitution of the United States, in particular the Second Amendment, gives its citizens the right to bring and maintain weapons. This is a right of discussion and has been the subject of debate for years. One of the questions discussed in relation to this constitutional law is whether it is legally and legitimately to employ mortal force. In the words of the US Armed Forces, mortal force is that used by a person to cause serious bodily injury or death to someone else. The mortal force can also refer to situations where a prudent and reasonable person is right to believe that there is a threat to cause serious physical damage and death. There are a variety of opinions, rules, guidelines and rules regarding the use of force that is reasonable. They are also in charge of using the least quantity of strength in pursuing, apprentice, or capturing anyone. There are occasions when police officers could use excessive or inappropriate force, the use of violent strength against them is difficult to demonstrate that they are justified. There are a lot of cases in which ordinary citizens complain of being subjected too much strength by the police when they confront their concerns. There are cases in which people are subjected to brutal force unjustifiably excessive by the laws of the law or police staff. But, on the basis of the state laws that use violent force against them, it could lead to a crime, unless there is a substantial and convincing evidence to support the use of force. One thing is certain that anyone who has used brutal violence against the officers of the police or law enforcement agents when they were carrying out their duties probably will be tried. The most important thing to consider determines the scope of the work and the responsibility they have. They are legally authorized to transport weapons and use it when necessary. During the execution of their legal responsibilities there will be moments in which they aim for other people, as people who are not willing to cause injuries. For the common citizen who points the guns could be seen as a threat to serious physical damage, which could justify self -defense. But, the law considers this as a position of the police or police officer as part of their duty to execute and not as a sign of the purpose of evil intent. This is seen by law as an integral part of the police and police system. To illustrate: for example, legal research is conducted on a residence, that is, home. Police officers entered the house, the weapons were designed and prepared to shoot. under normal circumstances, the owner has the right to defend his property eirav ni ilaizram itra ellen otlovnio otats "A ehc onuclauq emoc noisnecer atseuq ovircS .otnemogra'led orutam e otarucca otnemattart nu "A "esnefeD-fleS demranU ot ediuG etamitlU" .rJ htarE divaD" moc.tsitrAphW ,ttocS nimajneB - ."iuq erarapmi onossop ehc asoclauq onnah ittuT .anigap ingo ni acinctet ingo ni emeisni otaznavae etnaipicnirp atroP ...asoclauq odnecid ats idniuq ,ilaizram itra id irbil id acetoilbib alocipp anu oH .ottel iam alibba ehc ilaizram itra ellus ocitarp 'uip orbil li 'e otseuq ,ererap oim A ...nuh gniW e oD enuK teeJ ,BQC ,elpithum imra eserpmoc ,inna 02 acric rep asefidotua e ilaizram itra otaiduts oH" elatnemadnof ossets ol onnah liaB led itnega ilG .eracifitsuig rep asefidotua'l eracifitsuig id odarg ni Aras non rol id ortnoc aznelov alla errocir ehc anosrep isaislaug ,oroval orol li odneugese onnats iudividni itseuq eS liaB id itsinoizagilbO .elibacifitsuig eresse ebbertop aizilop id itnega ortnoc elatrom azrof alled osu'l iuc ni isac onos iC .asefidotua id asucs al noc isranatnolla iop ,aizilop id etnega'l eraraps iop e ,aus asac a aidotsuc ni oserp resse id erattpesos o ,eggel id elanimirc nu eraruttac rep itarp orol i odnasrevarta onnats ehc esac id irateirporp i etanigammI .aizilop id ihgilbo ilged e enidro'led enoizucese'llen ilivic eznerefretni el eramref id olleuq "A otseuq orteid oipicnirp II .asefidotua emoc orol odnaraps eracifitsuig id odarg ni "A non asac id arateirporp li ,etton .asefidotua emoc olracifitsuig ^Up non asac id oirateirporp li ,etton id asac aus allen etnematazrof es ehcna ilaicifu ilga araps asac id oirateirporp nu eS .eggel allad etsopmi Arilbasnopser orol el e ihgilbo orol i odnoce erezod orol li onoglovs issE .iudividni itseuq ortnoc azrof alled osu'l erazzilitu non id eggel allad otseihcr Aras asac id oirateirporp li ,ittoiilop onare ehc otnemom lad ,aivattuT .elaturb azrof from the early 90s. This is important because I started in a pre-internet era in which the magazine "Black Belt" was outlining ninja and experts of Di origin, where you could send a check to Midwestern addresses to be included in secret martial societies, before mixed martial arts exposed the limitations of style-based training. Now let's contrast with Mr. Erath's work..." - Zero One, Amazon.com Reveiw "Mr. Erath provides a thorough and helpful study of self defense...if you are committed to developing real functional self defense skills, this text is a must have. It is the best self defense book on the market." - Joseph Schuh, Amazon.com Reveiw "This is the best self defense book I have ever read. The techniques are sound, the strategies innovative, and the "Fundamental Five" can be beneficial to anyone with any martial experience or none..." - James McQuage, Amazon.com Reveiw "Fantastic self defense book. The author really nails the essence of Self defense...In summary: If you want to become effective in self defense, then this book is a must to read AND implement in your training." - N. Zwaneveld, Amazon.com Reveiw "I have an extensive back ground (over 40 years) in Karate, Escrima, Wrestling, Boxing and Reality Based Self Defense. There are too many books and DVDs on the market that are pure garbage. This book is not one of them. The information and technical instruction contained within is top notch..." - Mike S. Amazon.com Reveiw "I have many martial arts books and by far this one is the best one I have ever read or purchased." - Lorenzo Amazon.com Reveiw "So far this is the best book on self defense I have read, and I highly doubt I will find another book that is better." - David Hubbard Amazon.com Reveiw The Ultimate Guide to Unarmed Self Defense is a comprehensive guide to the most efficient and effective techniques, training methods, and strategies required for functional self defense.
