To begin this chapter Billy is apprehended by the traifamadorians and one of then explains what a book is to their species. "There isn't any particular relationship between the messages, except that the author has chosen them carefully, so that, when seen all at once, they produce an image of life that is beautiful and surprising and deep. There is no beginning, no middle, no end, no suspense, no moral, no causes, no effects. What we love in our books are the deaths of many marvelous moments seen all at one time That is interesting because I make an instant connection between the traifamadorian that is interesting declared in make an install connection between the dialimination books and Vonnegut the author's book. There is nothing about the books that can deem them politically correct or incorrect. There are just experiences, there are just moments. seen, there is just life or whatever the traifam adorians call it. This thought this theory immediately connected my thinking to the video we watched about the theories of life, free will and determinism. If there is no wrong or right then that eliminates variables to determine our decisions, which allows us, true free will. I think that I am beginning to understand the satirical message to this book. No matter how much us humans as a species denies it, we all have boundaries, we all have implemented morals, we all have applied rules, and we all follow a system. There is a certain set of rules and we have the ability to break them, we have the ability to be different but will we be? The mandatory systems of schooling and working a 9 to 5 job are now essentially skills that we as a species feel we have to complete for survival but are they? "Americans, like human beings everywhere, believe many things that are obviously untrue, the monograph went on. Their most destructive untruth is that it is very easy for any American to make money hey will not acknowledge how in fact hard money is to come by, and, therefore, those who have no money blame and blame and blame themselves. This inward blame has been a treasure for the rich and powerful, who have had to do less for their poor, publich and privately, than any other ruling class since, say, Napoleonic times." When I read this quote in the book I had to read it numerous times and analyze it because I really wanted to understand what I was reading. The first time I read it I found it thought provoking how Americans were being juxtaposed with other human beings like American is a different kind of people. The second time I read it a realized that it said people who are poor blame and blame themselves. Coming from my perspective I don't brink that people should blame themselves or be labeled self-blamers but a product of the system. Some people who are born poor can never experience anything other then poverty so how will they ever reach success? How will they even know if they haven't achieved success? "An American near Billy wailed that he had excreted everything b later he said, 'There they go, there they go.' He meant his brains. That was I. That was me. That was the author of this book."(125) I think this quote

Fuck, life is full of bullshit, as usual. I can't believe how fucking everything around me. As if I were surrounded by zombies. I can't talk to any of my so -called friends, I can't talk to Jamesie, I can't talk to my parents. who would take care of listening anyway. I can't wait to leave Orange's county! This place hurts me, fucking. Everyone is hypocritical. Everything is so cursed bright, shiny and sunny and meaningless. Fuck, life is full of bullshit. There is a good thing in my life, however. Read this catccher book in the Rye. I don't know how a written book decades ago can say exactly what I would say. It is how the author was reading my thoughts and put everything in this book. Things that I hadn't even understood that I felt they were just on the page! I loved it. I think this is my favorite novel of all time. Which is not saying much because there is a ton of pretentious bullshit there and I bet Madam. Durham forces us to read everything. man who hate that bitch. newspaper voice per day I am 20 years old. "The Rye. the Rye" is often compared to Mark Twain's classic, "¢ÃÂÂThe Adventures of Huckleberry Finn." Both books involve the coming-of-age process of their respective protagonists; both novels follow a journey of the boys;à Âboth works have caused violent reactions in their readers. Compare the novels and you'll find yourself in a fruitful discussion about what you can learn from each of the Flies. Penguin Group In "The Catcher in the Rye," Holden observes the "phoniness" of the adult world. He is an outcast in search of human interaction, but more than that, he is a teenager on the path to growing up. "Lord of the Flies." by William Golding also touches on what it's like to interact with others while still maturing. It is an allegorical novel in which a group of boys creates a savage civilization. How do the boys survive when they are left to their own devices? What does their society say about humanity as a whole? The Great Gatsby. Scribner In "The Great Gatsby" by F. Scott Fitzgerald, we see the degradation of the American Dream, which was originally about individualism and the pursuit of happiness. How can we create meaning in such a place of moral decay? When we step into the world of "The Catcher in the Rye," we question if Holden even believes in something like the American Dream. How does his idea of "phoniness" figure into the decline of the American Dream and the emptiness of the upper classes, as we see in "The Outsiders" by S.E. Hinton has long been a high school favorite, but the book has also been compared to "The Outsiders" by S.E. How do they interact? holden tells the story of "the catcher in the rye," and ponyboy tells the story to allow these guys to interact with what is around them? One jumped on the cuckoo's nest. the penguin "the catcher in the rye," and ponyboy tells the story of "the catcher in the rye," and ponyboy tells the rye, and ponyboy t of bitterness and cynicism. "one opposite the cuckoo's nest" by ken kesey, is a protest novel told by the perspective of the chief bromden. holden tells his story after he escaped from the hospital. What can we learn about the individual against society from the study of these two books? "flowers for algernon" by daniel keyes is another story that is approaching, but this is aimed at his head. charlie gordon is part of an experiment that improves his intelligence. in the process, we see the development of an individual from innocence to experience, similar to the journey of holden. time is an important element of "Slaughterhouse Five" by kurt vonnegut. with time and freedom are no longer constant in life, the characters are "stuck in amber." the author ernest w. ranly describes the character as "comedic and pathetic pieces, tangled by an inexplicable faith, as the puppets."Two novels was similar as both works were prohibited for sexual reasons. The characters try to do that could save them. How these connections play out, and what these connections play out, and what these connections play out, and what these connections say about the individual versus society is a question that's ready for a comparison between these novels. Of Mice and Men. Penguin "Of Mice and Men" is a classic by John Steinbeck. The work is set in the Salinas Valley of California Aand centers around two farmhands Aand centers around two farmhands and subject believed to reference the poem "To a Mouse" by Robert Burns, in which "The best-laid plans of mice and men / Go often askew." The work has been banned in the past because of its controversial language and subject matter. The two main characters can be compared with Holden in their mutual alienation and outsider status. "Pale Fire" by Vladimir Nabokov is a 999-line poem. It is presented as the work of fictional poet John Shade with commentary by fictional colleague Charles Kinbote. Through this unique format, Nabokov's work satirizes university life and scholarship, similar to Holden's views of the institutions. "Pale Fire" is a popular classic and was a finalist for the National Book Award in 1963, 1963.
